

## *EasyClub*

### Superior Technology Modernizing the Bonding Process

- ☑ Provides consistent high-strength bond
- ☑ Bond club heads in less than 15 seconds
- ☑ Breaks epoxy bond for easy shaft replacement
- ☑ Perfect tool for golf club repairs!

### Reliable and affordable Induction Heating system for the easy and clean repair and manufacture of golf clubs

**This user-friendly and affordable device can successfully bond most standard golf equipment made out of Carbon, Stainless Steel, Titanium, and Graphite composite materials.**

**This is the perfect tool for repairing golf club heads in less than 15 seconds, providing a strong and consistent bond, and breaks epoxy bonds for easy shaft replacement.**

### Features

- Easy-to-operate interface, with legible microprocessor control
- End-of-cycle and fault-audible signals
- Built-in thermal protection with automatic fan control
- Ready / Heat-On / Fault Status lights
- Timer Control: 0.2 – 9.9 seconds in 0.1 second increments; 10-60 seconds in 1 second increments
- Power control: 20 – 100% in 1% increments
- Foot-switch operated
- CE-rated models available

### Specifications

Input Voltage	Power Rating	Ambient Temperature Range	Power Supply WxDxH Inches (cms)	Heating Head WxDxH Inches (cms)	Power Supply Weight Lbs (kgs)	Heating Head Weight Lbs (kgs)
95–245 VAC 50/60 HZ	1.2 kW Max	32 - 97°F (0-36°C)	7" x 9.5" x 12" (18 x 24 x 30)	12" x 3.7" x 1.75" (30 x 9.4 x 4.5)	14.5	2.9 (1.3)

### Benefits

- Easy and clean bonding of golf clubs, while preventing damage to the coating
- Bonds club made out of Carbon, Stainless Steel, Titanium, and Graphite Composite materials
- Quick bonding – cycle times range from 5 to 15 seconds
- Breaks epoxy bond for easy shaft replacement

### Accessories

- Hand-held induction coil and associated circuitry for efficient heating
- Foot-switch assembly for convenient start
